

## SPECIFICATIONS

### SHEARING DISCS

Serrated cutter producing clean result, removing canes and tendrils from wires. Slow speed rotors for a low maintenance cutting system. Modular design can be ordered with the appropriate number of cutter discs from 6 to 14 pairs to suit your vineyard.

### HYDRAULIC MOTORS

Individual hydraulic motors on each barrel rotate the shearing discs providing an even and reliable driving force.

### OPENING SYSTEM

The cylinders are opened with an electronic button at the beginning of each row and at each intermediate post.

### SAW BLADE

The lower disc on each barrel is equipped with a fine tooth saw blade instead of the regular large toothed disc to provide a finer and cleaner cut.

### FLOATING HEAD

The head pivots on its own bi-directional suspension system with gas shock absorbers to allow machine to accurately follow canopy contour without damage.

### MULTI-MAST

The ERO mast unit, along with the electronic joystick can be used to mount other ERO tools such as trimmer, defoliator and cane sweeper to save you time and money.

# ERO VSL BARREL PRUNER

## DESIGNED TO MEET THE CHALLENGE

The ERO VSL Barrel Pruner is designed to meet the requirements of all vineyards, with modular construction and multiple options.

## YOUR BENEFITS

PREMIUM QUALITY GERMAN ENGINEERING TOGETHER WITH INNOVATIVE CUSTOMISATION FOR THE NEEDS OF AUSTRALASIAN GRAPEGROWER.

THE ERO VSL BARREL PRUNER IS:

- SIMPLE AND EASY TO USE
- RAPID WORK RATE
- QUALITY FINISH
- DESIGNED FOR LONGEVITY & RELIABILITY

## OPTIONAL ACCESSORIES

CUTTING LENGTH	NUMBER OF CUTTER DISCS
35 cm	2 x 6 Blades
49 cm	2 x 8 Blades
63 cm	2 x 10 Blades
77 cm	2 x 12 Blades
91 cm	2 x 14 Blades

### JOYSTICK CONTROLLER

Control the entire machine from your fingertips with the electric proportional joystick. Includes emergency stop and arm rest.

### HYDRAULIC ANGLE ADJUST OF MAST

The mast angle can be adjusted hydraulically 'on the go', ideal for contoured or terraced vineyards.

### Z-LINKAGE

For more accurate contour following even in terraced vineyards. Used in conjunction with hydraulic angle adjustment.

**VITICULTURE. IT'S ALL WE DO.**

FMR represents some of the world's best-known equipment brands, and we develop our own technology in-house to meet the more specific and often unique requirements of viticulture in Australasia.

As a specialist, we believe in doing one thing and doing it well. That's why our sole focus is on providing viticulturists with the very best equipment for mechanising day-to-day tasks.

Our goal is simple: we want you to do a better job, in less time, for less cost, and enjoy it more.
