

FMR SPIDER PLUS SPRAYER

INNOVATION FOR GROWTH.

FMR SPIDER PLUS SPRAYER

The FMR Spider Plus over row linkage sprayer is the ultimate solution for any vineyard with terrain that is difficult to handle with a trailed sprayer. The compact linkage mount Spider Plus offers the efficiency and quality result required in today's market, with turbine delivery system and hydraulically controlled boom making the operator's task simple and getting the active ingredient exactly where it's needed.

STANDARD EQUIPMENT AND FEATURES:

- Polyethylene main tank, system flushing and hand-washing tanks
- Bertolini Poly 2120 Pump - 120lt/min @15 Bar
- Durable hot dip galvanised tank frame
- 2 external level indicators.
- Arag electric controls with pressure adjust standard with auto rate control available as an option
- Centrifugal high flow turbine fan with auto clutch
- 12 double outlets with twin nozzles and anti-drip device
- 5 hydraulic functions (individual arm fold, arm lift and complete boom lift) from a central controller
- Chemical suction system
- Hydraulic tank agitation system
