

FMR SNAKE CULTIVATOR

NIUBO

INNOVATION FOR GROWTH.

FMR SNAKE CULTIVATOR

Interstock cultivator, mounted on a single or doubled sided carrier such as Xtrem, works at 5-10cm deep & 5-10 km/h.

STANDARD EQUIPMENT AND FEATURES:

- Spike rod/s
- Antiwear blade/s L=370, L=500 or L=620 mm depending on the model
- 2 or 3 fins ,each side, depending on the blade
- Simple effect special cylinder/s
- Independant limiter valve of pressure
- Hydraulic tubes to the tractor
- Attachments for hooking interstock/s to cultivator

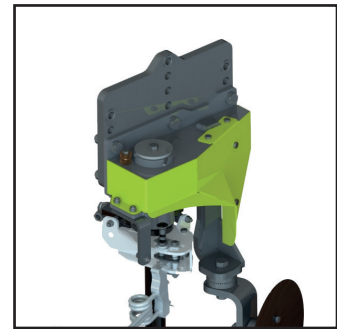

Important note: both hydraulic pipes always have to go connected one to pressure and other one to return without pressure (to tank).
