

Piket Drill Seed Planter

A versatile planting solution for vineyards and beyond

The Piket Drill Seed Planter is designed to efficiently sow pastures, grain crops, and cover crops, making it an ideal choice for vineyard floor management and economical field rehabilitation.

Key Features:

- **Triple Seed Bin Efficiency**, allowing simultaneous sowing of large seeds, fine seeds and granular fertiliser
- **No-till operation**, planting directly into existing ground cover, reducing erosion and protecting the soil health
- **3 Point lifting system**, facilitating smooth turns in tight vineyard rows
- **User friendly design**, with an intuitive control layout, minimising operator errors and ensuring consistent planting results
